

HOW TO TIE A TOBACCO TIE

ONE

For a tobacco tie you will need a piece of square red cloth and a pinch of tobacco. When grabbing your tobacco, you will always use your left hand. We do this as it is the hand that connects directly to our heart.

TWO

Take the tobacco and place it in the centre of the cloth. Keep in mind what you are giving this tie for; asking for teaching or for ceremony, it is important to hold the purpose in your head and heart at all times when making your tobacco tie.

THREE

Starting from the edge, slowly fold your cloth inwards. This will keep the tobacco in the centre of the cloth and make it easier for you to tie off.

FOUR

Taking each end of the cloth, ensuring to keep the fold closed and all tobacco inside, begin tying a basic knot, careful not to tie too tightly.

FIVE

Your tobacco tie is now ready to be gifted.
